2 ballons attachés ensemble
de man différents

Hello,

we found both balloons tied together on Saturday morning (September 29th, 2012). Attached a foto of the finder, Lelaina 6 years. The coordinates of the place of finding are:

51° 35' 20.30" N
007° 40' 30.28" O

It's quite close to the public swimming baths in Kamen (Nordrhein Westfalen, Germany). We (dad and the kids) are used to go there on Saturday morning for swimming.

Good luck
